# 2010 World Cup Stadiums

The whole world can't wait for the 2010 Soccer World Cup to begin. After a lot of discussion, bidding and finally votation, South Africa is the selected venue for the 2010 World cup. The Soccer wall calender for 2010 has a lot install with the initial battle between South Africa and Mexico. Many speculate that it will be probable for the final world cup [winners football game](#) to have an African country involved but this is yet to be seen. Many may not have time to follow the whole tournament, so if you're wondering what sort of world-class stadiums our favorite teams will be doing their [soccer tricks](#). For four years now, South Africa has been building new awesome stadiums just for this tournament. The most stunning are listed below so take a look all you ['soccerholics'](#):

\*Moses Mabhida Stadium- formally the Kings Park Soccer Stadium that is now a beautiful teflon-coated stadium with a glass fiber roof. Opened on November 2009.

Capacity: 70,000 Location: Durban Design: looks like the South African flag from an ariel view. The legs of the arch join which signifies the uniting of the formally devided country. This arch has a staggering height of 347 ft at the highest point. Has a translucent glow if lit.

\* Green Point Stadium- will hold the first six round matches, one second-round, one quarter and one semifinal match. The original stadium was demolished and reconstruced in 2007.

Capacity:70,000 Location: Cape Town Design:has sound proof material and is situated very near the ocean and has beautiful mountains in the background. Roofing is a unique retractable glass roofing of about 4,500 tons.

\* Mbombela Stadium- derived from "Mbombela" which is the siSwati word for "many people together in a small space." Capacity: 40,000 Location:Nelspruit Design: a very 'wild' looking stadium which gets inspiration from the many surrounding national parks. \* Nelson Mandela Bay Stadium-not to be confused with the former president Mandela but the Nelson mandela Bay Metropolitan Municipality. Will be hosting five first round matches, one second round, one quarter final and the third place playoff.

Capacity: 50,000 Location:Nelson Mandela Bay/Port Elizabeth Design:nicknamed 'the sunflower' has a roof with a series of petal like looking structures.

\* Soccer City Stadium- scheduled to hold all the main events both the opening and final match. The largest stadium in Africa.

Capacity:94,500 Location: Johannesburg Design:very lit during the night and resembles an African pot.

With all these stadiums, this year is surely to be a Cup to remember. Wouldn't you want to just book the next flight to Africa to witness this event?
