# Best Horse Racing Lays

Best Lays uses a unique horse racing selection method to identify hot favourites that are unlikely to win races. The whole filtering process takes between 2-3 hours daily and only the best lays make it into our subscribers inbox.

All lays have a ceiling price of 6.00 BSP , Best Lays strives to deliver at least 10 points profit every month.

However, do bear in mind that as with any form of gambling... laying horses can be dangerous and you can & may lose your entire betting bank.

Please note that this is a Monthly Subscription payment, you will make an initial of USD\$47 , then you will be billed USD\$47 every month until you cancel your subscription. To cancel your subscription, please use the contact form.
