Do You Like The Custom 49ers T-shirt Who's Got It Better Than Us T shirt??

Can't you tell the 49ers are putting things together?
Every week that passes they only seem to get better
Solid passing, running and defense all together
Got their fans coming out no matter what the weather

Now when it comes to being a fan in SF they tried and true
Its so cold standing in that wind waiting on your brew
Then the fact you gotta carry it all back to your crew
But those 49ers tickets they had made it all good with you

So ya'll start to sitting down
in the anticipation of the crowd
and as you crossing over them
they decide to cheer again

you thought you'd lost your luck
when they almost gave your arm a bump
But you stepped on his shoe like sorry dude
and made sure you didn't spill your cup

To tell yall honestly I aint even from the Bay
Moved out this way to put my Art through academy
One thing I can say about the folks from SF
They love the home team and love to say it on their chest

Red and gold are the tones
kings wear on their thrones
as they watch the gladiators just completing the throw

And the ladies like to jiggle in red and gold clothes
which makes it much warmer cuz in SF it gets cold
And while they sipping forties to pass the time
don't make a bad play and step out of line
Don't let that referee drop the dime
or all of a sudden comes out the glock 9

now this is a shirt to commemorate
A team which is loved by a crowd who relates
So if you also love the team and the philosophy behind it
Get yourself one right now and become a 49er
